

Pre-installed with
DIGIOP VMS suite

Extended Storage
Options – up to 30TB

Onvif
Compliant

Desktop Video Hardware

DIGIOP Desktop NVRs come equipped with DIGIOP VMS suite, allowing you to use Cloud Management* and data integrations for your video needs.

Powerful Video & Data Software Suite

DIGIOP is a ground-breaking software platform that features a single, user-friendly interface to the critical video and data intelligence that you rely on to effectively manage your business. Features include powerful search, playback & export, event-based notification, and centralized web-based management of single- and multi-site systems.

DIGIOP ELEMENTS: Cloud Management*

DIGIOP ELEMENTS is a web-based portal for video and data management. Our cloud management offers easy set-up and operation with centralized configuration and deployment fail-over. Administrators can configure systems, cameras, and users across single or multi-site enterprises anywhere they have access to the cloud.

ELEMENTS also includes a software and support maintenance agreement.

DIGIOP Data –Support for POS and Analytics

Video integration with applications like point-of-sale (POS) systems or video analytics used for counting people, bring real power to video and data. This exceptional technology enhances business intelligence by allowing real-time management of many types of data exceptions.

Desktop Video Hardware

System Performance

Video Recording: Various compression methods in standard and high definition resolutions. ONVIF support.

Playback: Multi-channel synchronized playback, meta-data driven search, filter query, advanced image post processing, thumbnail search, selectable event playback, smart search, digital zoom & enhancements, encrypted and easy export.

Recording Modes: Continuous, Motion Detection, Pre/Post Alarm

Video Streaming: Advanced compression and 128 bit AES encrypted

Audio: IP Camera dependent

Alarm I/O: IP Camera dependent

Hardware Performance

IT Platform: mATX Desktop

Server App & OS: Windows 10 LTSC, M.2 Hard Drive for the OS, DIGIOP VMS suite pre-installed (DIGIOP Video Channel and Data licenses sold separately.*)

Data & Peripheral Connectivity: 4 USB 3.0 ports, 4 USB 2.0 ports, 1 DVI output, 1 VGA output, 1 HDMI output

Network Interface: Dual Ethernet ports: 10/100/1000

Video Storage: Hard drive storage options, see chart

Power Supply: AC 110

Dimensions: 13.00" H x 5.6" W x 12.30" D

Shipping Weight: 25-28 lbs.

Operating Temperatures: 50° to 95° F

**Requires Subscription.*

Part Number	Processor	RAM	Recommended Use
DT-NVR3-W	i3	4GB	Small camera count with no local live viewing
DT-NVR5-W	i5	8GB	Small camera count with local live viewing Large camera count with no local live viewing
DT-NVR7-W	i7	8GB	Small camera count with local live viewing at full resolutions Large camera count with local live viewing at lower resolutions

Add on Storage Hard Drives (Up to 3)

Part Number	Description
HDD1TWDP	1TB WD Purple HDD
HDD4TWDP	4TB WD Purple HDD
HDD6TWDP	6TB WD Purple HDD
HDD10TSG	10TB SG Skyhawk HDD

Optional Encoder Add-On

Part Number	Description
ENCODER-HD16	16 channel Encoder - compatible with HD-TVI, HD-CVI, AHD and CVBS cameras (up to 2MP). Add-on up to 2 Encoders to DIGIOP NVP Hardware to provide Hybrid/Analog support. Supports up to 1080p @ 12fps. Includes NIC card (pre-installed in DIGIOP Hardware) and patch cable for connectivity.
